Vaccinations

Required vaccinations: Rabies, FECVRC, Felv

For your cat's protection, all vaccines must be current. We **require written proof or phone confirmation** from your referring veterinarian of vaccinations, including **Rabies, FECVRC, Felv**, for any cat that stays at Animal Hospital of Colorado Springs. If you are unable to provide proof of these appropriate vaccinations, an Animal Hospital of Colorado Springs doctor will provide a comprehensive physical exam and appropriate vaccines, which are your financial obligation. Your cat must be free of internal and external parasites, including fleas and ticks. If not, we will treat your cat at your expense. Please note that many vaccines do not take affect for 10-14 days, so be sure your cat is vaccinated before boarding for optimal wellness. I understand and agree to this policy.
